

CLAISSE® FUSION START-UP PROGRAM

Discover the full potential of your instrument!

You want to know more about the best practices in sample preparation by fusion and their impact on the quality of your analytical results? Try our Fusion Start-Up program to accelerate the feasibility study of your fusion methods and to start fusing your samples as soon as you unpack your instrument!

WHAT DOES IT INVOLVE?

One of our **specialists comes to your laboratory** to give you a 2 or 3-day training that **combines theory and practice** to help **optimize your sample preparation process** and the **skills of your employees**.

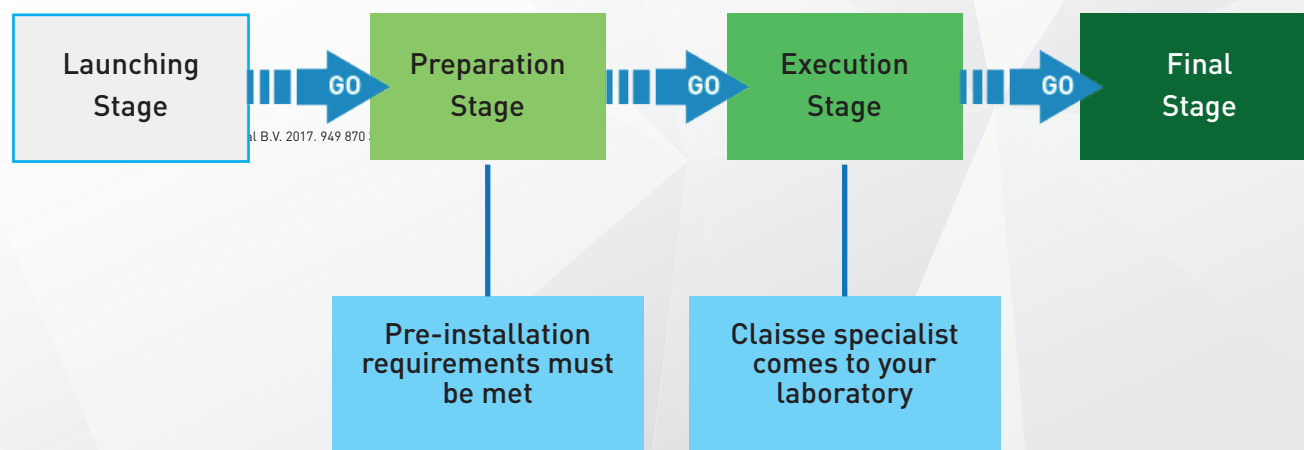

Various topics such as the **installation of the instrument**, the **weighing step**, the **manipulation of accessories** as well as the **fusion method development** can be covered in the Fusion Start-Up program depending on your needs.

THE FUSION START-UP PROGRAM ALLOWS :

- Empowerment of employees since they can do the basic short-term maintenance and troubleshooting by themselves
- Fast, consistent and accurate results
- Increased lifetime of instrument and platinumware
- Enhanced productivity

STEPS OF THE FUSION START-UP PROGRAM

You need assistance in your day-to-day analysis? Our experts can help you develop the perfect fusion method for your samples! Contact one of our fusion specialists at support@claisse.com or visit us at www.claisse.com!
